

Vamsi Thulluri

Visakhapatnam, | +(91)-8309122060 | thullurivamsi25@gmail.com |

Software Engineer

JAVASCRIPT | React js | RTK | REDUX | Core Java | Spring frame work | Spring Boot | Hibernate | Micro Services | JUnit | JMeter | HTML | CSS | SQL | Postgresql | MongoDB

Skilled and dedicated software professional with expertise in **JavaScript, React.js, Redux, Redux Toolkit, PrimeReact, PrimeFlex, Core Java, Spring Framework, Spring Boot, Hibernate, JUnit, and JMeter**. Proficient in **HTML, CSS, SQL, PostgreSQL, and MongoDB**, with a strong foundation in building scalable and efficient web applications. Possesses excellent problem-solving abilities, keen attention to detail, and a collaborative mindset. An effective team player with strong communication skills and a proven track record of delivering high-quality solutions within deadlines.

PROFESSIONAL EXPERIENCE

Vensai Technologies

Software Engineer

Client: Ceva Logistics

Project name: MDM-UI

Roles and Responsibilities

- Explored the **MDM-UI application** to understand its codebase, frameworks, routing, and integrated libraries.
- I have acquired knowledge about the **CJF-React-Template** framework, built with React, which streamlined the development of four core applications: **AAF (Authentication & Authorization Framework), Base, Common, and Demo**—shared across multiple projects.
- AAF played a vital role in managing authentication, while Demo served as a replica of the CJF framework. Common having common properties, Redux stores, and utilities like I18N for language translating the content, , UI elements, messages, and labels into different languages to cater to a global audience. Base focused on user profiles, error pages, and utility functions like menus, all accessible via npm installation in the node modules.
- Implemented **AAF, Common, Base, and Demo** in the **MDM-UI project**, facilitating seamless **CRUD operations** with **MDM-table** while maintaining strict authorization protocols.
- Empowered the **MDM-UI** project with extensive customization capabilities, allowing theme modifications, component additions, and dynamic sub-menu integrations, enhancing adaptability and user experience.
- In the **MDM-UI** I Created a CRUD component in **MDM-UI** similar to the **MDM-table** with the help of **prime react components** and **prime flex**

PROJECT/ INTERNSHIP EXPERIENCE

Animal rescue: This project had a primary focus on implementing **login authentication** functionalities, catering to both **admin** and **user login** capabilities. Furthermore, it exclusively utilized **React.js** and **Redux Toolkit** to enhance its functionality and improve usability

Shopping: I developed a shopping application using **React.js**, employing **PrimeReact** components and **PrimeFlex** libraries for its construction. Furthermore, I implemented Paytm integration, enhancing the application with secure and convenient payment processing functionalities, thereby ensuring a seamless shopping experience for users.

Banking: Developed and implemented three key modules for **bank customers, customer accounts, and transactions** using **Spring Boot**. Integrated **REST APIs** with **Feign Client** for seamless service communication. Designed and built a **responsive and user-friendly frontend** using **React.js** and **Material-UI**. Optimized application performance and ensured a **scalable architecture** to enhance user experience and efficiency.

EDUCATION

BACHELOR OF SCIENCE – COMPUTER SCIENCE

2019-2022

Andhra University/Dr.v.s. Krishna Govt Degree College /Visakhapatnam (8.2 CGPA)

MASTER OF COMPUTER APPLICATION

2024-2025

Andhra University/AQJ Degree & PG College /Anandapuram (Pursuing)

PROFESSIONAL SKILLS

- Front End : JAVASCRIPT (Es6), React js , TypeScript , Redux , Redux Tool Kit (RTK), Prime react, prime flex, Material UI , HTML, CSS
- Server-side technologies: Node js , Core Java, Spring frame work , Spring Boot, Hibernate , Micro Services
- Database: SQL , PostgreSQL, MongoDB
- Testing & Performance: JUnit , JMeter

CORE COMPETENCIES/STRENGTHS/PERSONAL TRAITS

- ❖ **Technical Expertise:** Proficient in **JavaScript, React.js, Redux, Redux Toolkit, PrimeReact, PrimeFlex, HTML, CSS, Core Java, Spring Framework, Spring Boot, Hibernate, JUnit, JMeter, SQL, PostgreSQL, and MongoDB.**
- ❖ **Problem-Solving Abilities:** Skilled in analyzing complex issues, troubleshooting technical challenges, and developing efficient solutions.
- ❖ **Adaptability:** Quick learner with the ability to grasp new technologies and frameworks. Comfortable working in fast-paced environments and adapting to evolving project requirements.

LANGUAGE COMPETENCIES

Telugu: Native language, English: Fluent (Speaking, Reading, Writing)
